1000X super speed CF CARD

• Satisfying professional photographers' need

SP Superior CF 1000X provides exceptional transfer rate reaching up to 150 MB per second* as well as a larger capacity of 128 GB, satisfying professional photographers' need in storing more high-quality images, 3D or full HD videos in just one single memory card.

• Capture your instant and cherishing moments in continuous shooting experience

SP Superior CF 1000X is VPG-20 supported, which guarantees the video capture rate at up to 20 MB per second. Operable in Ultra DMA mode 7, CF 1000X's performance can be boosted at up to 150 MB per second*, perfectly built for professional enthusiasts to indulge in continuous shooting experience.

• Larger capacity provides extraordinary photographic experience

With two choices of capacity from 16 GB to 128 GB, photographers can be worried free from changing another CF card in the middle of shooting frames and images.

Features

- High-Performance Speed: 1000X
- Ultimate speed for professionals
- Multi-platform compatibility for advanced DSLR cameras and devices with CF slot
